SAUNASELL **coho**
COMPACT HOME

Patio Sauna Series

The Patio series – a modern and stylish collection of square-shaped saunas. The series seamlessly blends modern elegance with functional design, making it the ideal addition to any outdoor setting, whether by the pool or in the middle of garden greenery.

EXTERIOR

INTERIOR

Patio premium class outdoor sauna series is designed and manufactured by Saunasell – one of the greatest sauna manufacturers in Estonia with more than 15 years of production experience.

THERMOWOOD

All Patio sauna models are manufactured of **thermo treated wood**.

Thermowood is environmentally friendly and has many practical advantages.

During the heat treatment process, all the resins and other chemicals are removed from the wood, leaving it completely non-toxic. The heat treatment process also stabilizes the wood, meaning that there is no risk of twisting or splitting in future. Choosing thermowood is an eco-friendly choice for minimizing environmental harm.

AS DETAILS

PREMOUNTED

Patio sauna models can be ordered **as details** or **premounted***.

* Premounted sauna is assembled by our specialists and externally treated with Remmers HK Lasur

A close-up, warm-toned photograph of a person's hand pouring water from a black ladle into a metal basket filled with smooth, dark grey sauna stones. A vertical copper pillar is visible on the left. The background is softly blurred, showing the person's legs and a wooden floor.

Life is better in a sauna!
