## Experienced Estonian manufacturer of outdoor saunas and log houses

15

years of manufacturing experience

17+

countries around the world selling our products

70+

different products in sortiment

190+

production capacity per month

Our production complex is located in a small village called Võnnu in the middle of fields and forests in South Estonia.

Saunasell is one of the first and biggest manufacturers of outdoor saunas in Estonia producing oval, barrel, log and terrace saunas, sauna pods and hot tubs. Next to Saunasell, COHO was born to offer and create more complex and bigger log projects. Together we have more than 25 years of experience in manufacturing of different sizes of saunas, holiday and summer houses, garages and living houses.

In addition to Estonian market, our products can be seen all around the world. We have sold our products to more than 20 countries.

The entire production process takes place in our factory – it starts with the preparation and finishing of the material up to turnkey projects.

Our production complex is located on an area of 6 hectares, where 8 production buildings with a total volume of 7,540 m<sup>2</sup> are in everyday use.

In 2021 we expanded our production area and capacity significantly. Our high-quality log houses are produced by fully automatic Hundegger K2i production line. We offer massive log profiles (40-152mm) and laminated log profiles (88-204mm). There are other machines in our fleet in everyday use as well – AUER-BL100A, Salvador SUPERPUSH 250 and CNC SCM.

### Long Production Experience

We have been operating in manufacturing for over 25 years! Our goal is to continue to produce high-quality and reliable products to all over the world.

### Turnkey Option

Our bigger products are delivered as a kit, but smaller projects can be delivered already assembled in our factory and will reach you as a turnkey project.

### Wide Product Range

Everyone can find a suitable product from our product range – whether it's a small sauna house or a two-floor living house. There is more than 70+ products in our assortment.

### Custom Solutions

In addition to standard models, we make custom solutions. Our mission is to provide professional service, high-quality products and to be a flexible sauna manufacturer considering the customer's needs.

### High Quality Materials

All our products are made of high-quality wood material, which ensures the ease of use and lifetime of the product.

### 95% Deliveries On-time

Saunasell and COHO are both reliable partners, we meet deadlines and do everything in our power to ensure products on-time arrivals.

From a little hot tub to a large living house.
